Transport organisieren

Unlike our former main forwarder, with whom we have recently stopped doing business for reasons that I will not elaborate on further, you have always fulfilled our contracts to our complete satisfaction. We have two boxes (fibreboard boxes with steelbands) of semiconductor wafers. The cargo is already packed and labelled as “highly fragile” and “do not stack” according to international transportation and safety standards.
The shipment has to be sent on its way within the next 48 hours. Our customer urgently requires this shipment. Please let us know whether we should drop off the shipment at the InterGlobe Freight Terminal at Paris CDG airport or if you will pick it up from our plant in Le Havre.
