The history of Hollywood

1 Hollywood is full of movie studios and theaters, and it's where all the most important stars live. Millions of tourists go to Hollywood every year, over 5,000 every day. They visit movie studios and hope to see their favorite star on the streets. But how did Hollywood

Going to the movies became almost everyone's favorite hobby. In the 1920s movies were silent, but after 1927 more and more movies had sound. A lot of movie studios moved to Hollywood because of the dry, warm weather which made it easier to film outdoors. The
10 Hollywood sign was built in 1923. It was actually an ad for new houses in the Hollywood Hills near Los Angeles. Today it is one of the most famous sights in the USA.

Children working on a construction site

Police are interviewing the boss of a construction site in Los Angeles because people reported that they had seen children there. Someone even sent a video to the police which was filmed in secret on a phone. It shows 12-year-old children who are working on the construction site. They are carrying heavy boxes and even driving a truck.

Our reporter talked to the boss of the construction site. He said, "The children didn't get any money. Their parents work on the construction site and the children just wanted to join them. I didn't do anything wrong."

Children under 14 aren't allowed to work on a construction site because the work is too dangerous – it doesn't matter whether they are paid or not.
