

1. Löse alle Aufgaben.
2. Überprüfe deine Lösungen online. Gib dazu den -Code (nach Ziel 5) auf www.klett.de ein.
3. Gib dir selbst Punkte. Wenn du weniger als die Hälfte der Punkte hast, male das Kästchen rot aus und übe auf den Step by step-Seiten (z.B. bei Unit 1 auf S. 20–21).

Ziel 1: Ich kann Informationen über Kanada verstehen.

Sockeye salmon¹

1 The Adams River runs from the Monashee Mountains in British Columbia to the Pacific Ocean, but what makes this river so special is a kind of fish that lives there – the sockeye salmon. These fish are born in the river and spend the first year of their life there. After that they go on a challenging 2,000-

5 kilometres journey to the Pacific Ocean. Three years later they return to the river where they were born, and it only takes them 17 days. This demanding return journey is a wonder of nature. The fish have to swim up the river and even jump up waterfalls. Along the way the fish stop eating and change color from green to bright red. At the end of their journey they lay their eggs and die.

10 Nobody knows why, but every four years the number of salmon that return is really large – in the millions. In 2010 there were about 34 million. In other years it is only hundreds. The next big years are 2022 and 2026. During these years the salmon will fascinate up to 200,000 tourists who come to the area to watch them.

1 sockeye salmon [ˈsɒkiɪˈsæmən] – Rotlachs

Answer the questions in complete sentences.

1. Why is the Adams River so special? It is special because of the sockeye salmon.
2. How old are the fish when they leave the river? They are one year old.
3. When do the fish return to the Adams River? They return after three years.
4. What do they do when they return home? They lay their eggs and die.

Ziel 2: Ich kann über Sport und Freizeit sprechen.

Describe your favourite free time activities and tell your partner about them. (Lösungsvorschlag)

How much time I spend

Who I do it with

When I started it

Why I like it

How much money I spend

What my parents think of it

In my free time I play basketball. I play with my friends in the afternoon and at the weekends. I started playing when I was twelve years old. I like basketball because it is a team sport and because you can play outside most of the year. I don't need much money to play – sometimes I buy a new ball. My parents think it's great that I play because I am outside a lot and I spend my free time with friends.

Ziel 3: Ich kann einen Protestbrief schreiben.

a) Read the the notes.

- local park always full of garbage
- people throw garbage on the ground after picnics
- equipment in the playground is old and broken

- younger brother can't play there without hurting himself
- do something about it: clean the park and repair things

b) Write a letter of protest to the city. (Lösungsvorschlag)

Dear Sir or Madam,

I am writing to you because of the situation in our local park. The park is always full of garbage because people throw their garbage on the ground after picnics. Another problem is that the equipment in the playground is really old and some of it is broken. My younger brother is not allowed to play there any more because my parents are afraid that he will hurt himself.

I understand that it is difficult to control what people do in the park, but I also think that you are responsible for the park. I think it would help if you cleaned the park.

I also think you need to repair the equipment in the playground because it is really dangerous for the children.

Yours faithfully,

Laura

Ziel 5: Ich kann Informationen über Drogenkonsum weitergeben.

INTERNET

ADDICTED TO ONLINE GAMES

1 Doctors know a lot about drug and alcohol problems and how
to treat them, but there is now a new addiction that is affecting
people around the world. It is the addiction to online games.
5 Over the years online games have become more appealing
because the graphics are better, the characters are more
fascinating, and gamers can play with people anywhere in
the world.

10 Why is this addiction so dangerous? Addicted gamers often
don't eat or sleep because they don't want to stop playing their
games. They can play all the time because they play with people around the world. The lack of
sleep and good eating habits can badly affect their health. These gamers spend all of their free
time online; sometimes the gaming world even replaces the real world. In a fantasy world, a
gamer can develop a character that is very different from himself or herself – a character that
is stronger, more successful and maybe more popular.

15 Some online games are more addicting than others. For example, some games require a lot
of time because you can only get to higher levels if you spend a lot of time playing. Often
gamers are playing against each other, so if a gamer takes a break or doesn't spend enough
time playing, then he or she loses. In other games, gamers around the world have to work
together to win, so players are dependent on each other. Games with an open end are also
20 more addicting as well as games that use money. It doesn't matter if it's an online currency
or real money; it usually makes the game more expensive.

Deine Eltern machen sich Sorgen, weil dein Bruder viel Zeit mit Computerspielen verbringt. Sie haben diesen Artikel im Internet gefunden und möchten wissen, was darin steht. Beantworte die Fragen auf Deutsch.

1. Warum machen die heutigen Spiele schneller abhängig?

Die Grafiken und Charaktere sind besser. Man kann online mit Leuten auf der ganzen Welt spielen. Man kann sich nur steigern, wenn man viel und oft spielt. Wenn man im Team spielt, ist man aufeinander angewiesen und muss öfter online sein.

2. Woran erkennt man, ob jemand spielsüchtig ist?

Spielsüchtige vergessen zu essen oder zu schlafen. Sie verbringen ihre ganze Freizeit online, und manche werden dadurch auch krank.

3. Welche andere Gefahr gibt es?

Wenn Spiele kostenpflichtig sind, kann das sehr teuer werden.
