## New ice-cream maker

Making your own ice cream is easier than you think. You can use anything you like - fresh fruit, chocolate or nuts. You can also try something new and make ice cream that isn't sweet. Try ice cream with tomato, salt and pepper or ham and cheese.

Your friends will love it!

## Children working on a construction site

Police are interviewing the boss of a construction site in Los Angeles because people reported that they had seen children there. Someone even sent a video to the police, which was filmed in secret on a phone. It shows twelve-year-old children who are working on the construction site. They are carrying heavy boxes and even driving a truck.

Our reporter talked to the boss of the construction site. He said, "The children didn't get any money. Their parents work on the construction site and the children just wanted to join them. I didn't do anything wrong."

Children under 14 aren't allowed to work on a construction site because the work is too dangerous and it doesn't matter if they get paid or not.
