The next time you practise small talk, use the following tips and phrases. They can help you with different small talk situations.

Talking about the weather

It's a national joke that British people like to make small talk about the weather. But actually, it often happens!

The weather is always around and anyone can talk about it. So when you don't want to have a personal or serious conversation, it's a safe topic. Talking about the weather is especially common for very short small talk conversations, for example in shops or at the bus stop. The usual answer is to agree with the comment.

Examples:

"It isn't very nice today, is it?" – "No, it isn't."
"Isn't it lovely today?" – "Not bad for the time of year."

Useful phrases

It's a bit better / worse than yesterday. | It almost feels like summer. | There's not a cloud in the sky! | The weather forecast says it's going to ... | At least it's not too windy. | I think it'll clear up later.

How to keep a conversation going

It can be difficult to keep a conversation going. Here are some more tips:

Don't just ask yes / no questions.

Use open-ended questions ("WH-questions") to give the other person the chance to tell a story.

Show you are listening.

While the other person is talking, use short phrases to show your interest and understanding.

Change the subject.

If the conversation gets stuck, it can help to move to a new topic.
