Each player gets 16 cards. Put your cards in a pile and hold them in your hand so that you can read the text on the first card, but your partner can't see the picture on the other side.

Partner A: Read the text on your first card to your partner. Don't show her or him the picture!

Partner B: Find the right picture on the map.

Partner A: Look at the back of your card.

Is it the right picture? Then B gets the card.

Is it wrong? Put the card back in the pile. B can try again later.

Now B reads the text on her or his first card and A finds the picture on the map.
