

Very wet and very hot – Tropical rainy climates

Monsoon

1 Here are some of the rules people have to follow before and during the monsoon. Draw a road sign for each of them.

Listen to the radio and TV to know about strong wind or rough seas.	Make sure that you have enough food and water with you.	Stay on safe ground. Stay away from fast flowing rivers or flooded areas.
Park your cars or other vehicles on higher ground.	Don't go fishing in small boats.	Do not drive into flooded areas.

2 Look at the maps of India and the Himalayas. Put the areas with high and low pressure into the correct position.

Very wet and very hot – Tropical rainy climates Monsoon

3 Imagine you travel to India for your holidays. Write a letter to your friend in which you describe how the south – west summer monsoon and the north – east winter monsoon influence India.

Dear _____

How are you? I'm fine, I'm enjoying my holidays in India. The weather is different to the weather in _____
Germany. Did you know that India is influenced by the monsoon? Let me tell you about it.

Useful words:

road sign – Verkehrsschild, high/low pressure area – Tief-/Hochdruckgebiet, to influence – beeinflussen
