

## Visiting sights by Tube

You are a group of tourists in London and you want to take the Tube to visit some sights.

1. Play in groups of three or four students.
2. Cut out the small cards with the Tube lines. Each player gets ten different small cards.
3. Cut out the big cards with the sights, mix them and put them face down in the middle of the table.
4. One player turns over one of the big cards.
5. The other players must find the shortest route to get to that sight from Piccadilly Circus (Piccadilly line / Bakerloo line). Use the Tube map at the back of your book. Put the small cards into the order in which you can travel with the different lines to get to the sight on the big card. As soon as a player is ready, he / she calls "Stop!".
6. The player who called "Stop!" must now show his / her small cards and describe the route. Use the phrases below. The other players must check if the description is correct.
7. If it's correct, the player can keep the card. If it's wrong, put the card away.
8. Now the next player turns over a big card.
9. The other players must find the shortest route to that new sight from the station where the last sight was and so on.
10. The player with the most cards wins.
