

**1 A mind map**

Work with a partner and make a mind map on the topic 'school'. Write down as many words as possible. Don't look at your neighbour's sheet. When you have finished, tell your neighbour about your words but don't say the word itself. Your neighbour has to guess the word.

**Example:** teacher → This man/woman tells you what to do in your Maths lesson, for example.

**2 Explaining words**

There is a British exchange student at your school. She often forgets German words. Can you help her?

**Example:** It's red and it's in the mouth. → tongue (Zunge)

1. It's a small house in the country.

---

2. You can leave a friend a message on this.

---

3. They are mostly green and grow on trees. They fall down in the autumn.

---

4. It's an important test at school, usually at the end of the year.

---
